ICE SCULPTING

Activity sheet · Playful

Ice sculpting is a relaxed and enjoyable activity where creativity flows in the warm glow of the fire.

With professional guidance, the participants are introduced to the magical world of ice sculpting. The participants shape the ice according to a set theme, which could for example be the company logo. Using different types of chisels, the ice is shaped into the vision the group has chosen.

When the time comes, the groups present their works, and the honourable mention goes to the team with the best creation combined with the best justification. A different activity that can actually be done all year round! To spice things up even more, we can also build an ice bar.

Good to know

Outdoors – dress for the weather. Ice bar on quote.

Location
We come to you – all of Sweden

Duration
1.5 hours

Participants
10–1000 participants

Price
