KICKBIKE SHOOTING

Activity sheet · Sporty

Kickbike shooting is a different take on a well-known sport: biathlon.

But instead of skis we use big kickbikes, and instead of firearms we use air rifles with telescopic sights. The participants are divided into teams, and we start with shooting practice and an introduction to the kickbikes. Then the race begins: an unusual technical course is tackled on the kickbikes before it is time to load the rifles.

The goal in the standing shoot is to knock down the five black biathlon-style targets, and every miss means a penalty lap. The intensity has to be high but controlled to avoid penalty laps. The instructor gives tips and advice throughout. The fastest team to the finish wins the day.
