TEAMBUILDER

Activity sheet · Playful

iTeambuilder is a fresh and exciting team building activity where new technology meets a proven format.

Around 50 tasks are to be solved with the help of iPads. The challenge is that there are far too many tasks to complete in the time available. Each team therefore needs a strategy and tactics: what can they do, what do they have time for and what must they do to have a chance of winning the trophy we show at the start?

Fun exercises, tricky questions, interactive photo missions and construction tasks keep coming in an endless stream. The equipment handed out includes a backpack, an iPad and a map of the area. Everything ends with an exciting team building competition held at stations.

When the competition is over we share all the funny stories from the day before the winners are finally crowned with a golden trophy!
