WINTERGAMES

Activity sheet · Playful

The Winter Games is a fast-paced competition modelled on the Olympic Games.

We do five events in total that resemble the real ones – although we have made the execution a bit more fun. The games open with a joint ceremony where we line up by nation and light the Olympic flame. Team spirit is sky-high as we march with the national flags and sing our cheers.

The flame is lit together and then the games begin. The participants move between five stations where different competitions await. The events include mini monoski slalom, giant skis, hockey target shooting, biathlon relay and human curling.

The exact events are adapted to the venue and your wishes. The games end with us adding up the results and holding a medal ceremony where the winners are crowned.
